

Pouilly-Fuissé Sur La Roche

History

Single vineyard site on the commune of Vergisson

Tasting

Beautiful pale gold colour. The nose evokes buttery and grilled almond aromas. In the mouth, the very pronounced mineral character of the terroir gives a lot of purity (flint). Very nice finish, long and persistent.

Terroir

Quaternary clay-limestone soil (Lower Aalenian)
Exposition: south-east
Altitude: 370 m
Slope: 10%

Viticulture

Grape variety: Chardonnay
Density: 10000 plants/ha
Average yield: 45 hl/ha
Harvesting by hand

Vinification

Direct pressing, light settling, alcoholic and malolactic fermentation in oak barrels. Aged 18 months in barrels. Racking, then light filtration before bottling. No gluing.
